Very entertaining almost like games.0 of 0 people found the following review helpful. Great activity bookBy miss faithAwesome for teaching activities to build success in phonemic awarness...9 of 9 people found the following review helpful. Transformed my classroomBy TI can't say enough about this book and how it changed the experience of the children in my classroom. As a volunteer teacher in a developing country, I had no experience and even less guidance when I began to teach elementary school last year. I brought many books on children's literacy with me and this is the \*only\* one I used. Patricia Cunningham knows how children learn and understands the basic tools that teachers must have if they are going to teach reading and writing. About 1/4 of my students were reading when I started the year, and by the end they could almost all form their own basic written sentences on paper and \*all\* of them could read very simple sentences. I would give this ten stars if I could. Buy it.*

*Written by an outstanding scholar, Phonics They Use, seamlessly weaves together the complex and varied strategic approaches needed to help students develop reading and writing skills and offers a collection of strategies and hands-on activities that provide a framework for teaching phonics. Building on previous editions, it focuses on how students use phonics to read and write, not just how much phonics a student knows. Each chapter is filled with developmentally appropriate activities that hel ...*
